IMPERIAL MARBLE

IMPERIAL MARBLE QUARRIES, GATEWAY TO ETERNAL BEAUTY

Imperial marble, also known as Spider marble or Versace marble, is a stunning and sought-after building stone prized for its deep, rich colors and luxurious appearance. Renowned for its elegance and versatility, Imperial marble adds a touch of sophistication to any interior or exterior space.

We are proud to be the largest miner and producer of Imperial marble in the world. Our mines are located in Dehbid, Iran, a region renowned for its exceptional marble deposits. We carefully extract and process each block of Imperial marble to ensure the highest quality and consistency.

Compressive Strength 99%

STORM QUARRY

STORM MARBLE

STORM QUARRY, ORIGIN OF A DANCE OF DARK AND LIGHT LINES IN THE HEART OF THE EARTH

Storm Marble is a stunning natural stone with a deep black base dramatically contrasted by flowing white and smoky gray veins. This captivating design evokes a moonlit night sky with crashing waves. Skilled craftspeople can use Storm Marble to create luxurious and timeless pieces like countertops, slabs, wall panels, and even flooring.

MARLIK QUARRY

MARLIK MARBLE

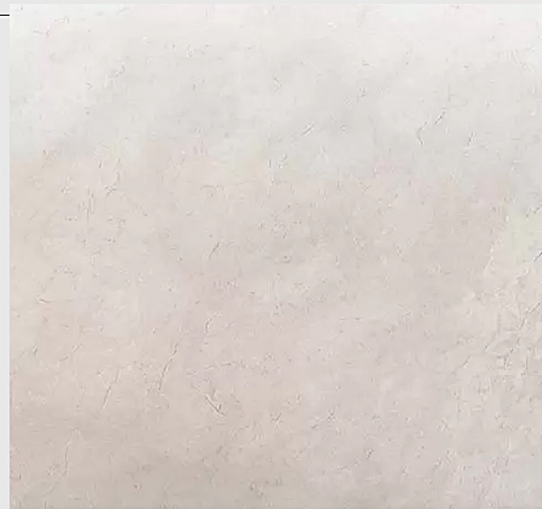

A SYMBOL OF BEAUTY, QUALITY AND HERITAGE

with great pride, we introduce Marlik marble, a high-quality marble stone with a serene and captivating light cream color. This exquisite product is not only an emblem of beauty and craftsmanship but also a symbol of rich history and culture.

Marlik marble is carefully extracted from the newly operational Marlik mine, nestled amidst the majestic Dehbid mountains. This exceptional stone not only boasts unparalleled beauty but also exhibits remarkable resilience against impact, heat, and moisture.
